NORTH DAKOTA GELBVIEH ASSOCIATION

www.ndgelbviehassociation.com

Founded in 1982 with 6 members. Today there are approximately 60 members. The North Dakota Gelbvieh Association (NDGA) sponsors the annual "Golden Rule" sale. This sale is one of the longest running, most successful state association sales in the nation. North Dakota ranks 4th in the nation for active cows and 5th in the nation for registered cows. According to the American Gelbvieh Association (AGA), North Dakota is the most aggressive state in the nation for promoting the Gelbvieh breed.

LOST RIVER LIVESTOCK

Snazzy B26 ET is a direct daughter of our highly productive Snazzy 114L cow. There are 12 females in our herd calving this spring that trace back to the 114L cow. We place a lot of emphasis on breeding highly productive cows and that's exactly what the Snazzy line of cows has been for us. Snazzy B26 ET will continue the line of terrific Snazzy cows for her new owner. She has tremendous muscle expression, great bone and is setting down a very desirable udder. She sells safe to Connealy Courage (AMAN17302304), carrying a bull calf due 2/23/2016.

CHIMNEY BUTTE RANCH It's always hard to sell females from a strong maternal line. Her maternal granddam N109(Dam of Distinction every year since 2012) has just retired at over 12 years of age after sending multiple offspring to past ND state sales. Chris asked for the dam (X114) to be in a previous state sale, but I declined to save some of granddam genetics for myself. With this being X114's 3rd heifer calf, I am ready to share the wealth. This is the second set of females to calve out of the Upgrade bull, and we were thrilled with the first set. This heifer is destined to be a breed influencing female! Ultrasound confirmed she is AI bred to DCH Hille Y109(1199670) with a heifer calf due Mar 2.

Here is a full sister to our bull consignment and she is every bit as good as her brother. She's long fronted, smooth shouldered, deep sided and has terrific muscle expression. She may be one of the best heifers we have let off the place; and she doesn't get this title just based on her phenotype. Her mother is hands down one of the most eye appealing and productive cows we've ever owned. Rylee C55 ET should become a centerpiece in her new owner's herd.

A standout in the summer pasture and an exceptional calf at weaning; she continues to impress us daily. A pleasure to work with, she is already halter broke and ready for the show ring or breeding pasture. Ideal phenotype, excellent disposition, dam has a perfect udder with plenty of milk, outstanding maternal pedigree, andthe list of positive attributes continues long past this footnote. One of a kind, hard to part with, and you will run the wheels off your pickup looking for a better female.

I can't say enough good about her. Her mother has had a heifer every year and this is only the second one to leave the place! The other daughter is working in Randy Sienknecht's herd. This cow is very consistent in producing high quality genetics. 507 is complete all the way around. She is long with great depth of rib and thickness throughout. She has a great disposition.

Genomic enhanced EPDs.
LRSF Long Haul C27 ET is one of our highest performing calves this year. He has terrific growth, a very eye appealing phenotype and a great disposition. And to top it off he has one the best pedigrees on the farm. He is a full brother to our open heifer consignment and comes from a flush of 23 grade one eggs. His mother produced that many eggs in the same year she had twin heifer calves and bred back within our calving window. And she's also been a Dam of Merit in every year of eligibility. So if you're looking for a bull to sire powerful, highly productive calves, this guy needs your attention on sale day.
