A black and white photograph of a rodeo arena. In the foreground, a crowd of spectators is seated in bleachers. In the center, a cowboy on a horse is performing a trick, with the horse's front legs raised. The background shows the arena's structure and other spectators.

19th Annual **Breeder's CHOICE** *Gelbvieh Bull Futurity*

SATURDAY, JANUARY 9, 2016

Held in conjunction with
National Western Stock Show • Denver, Colorado

Breeder's CHOICE

Gelbvieh Bull Futurity

GENERAL INFORMATION

The Breeder's Choice Bull Futurity has been initiated by Gelbvieh breeders and supporters to increase participation in the National Gelbvieh Show, the National Gelbvieh Sale and to identify the most useful young sires in the Gelbvieh breed. The sponsor of the annual Futurity will be the Breeder's Choice Bull Futurity, Inc., a non-profit organization, not associated with the American Gelbvieh Association.

The Futurity winners will be selected by scored balloting of the participating breeders members. Ballots must have a different bull in 1st, 2nd, and 3rd positions. Ballots must include all three positions.

The consignor of the Futurity winner shall receive approximately 80% of the net Futurity funds. Two runners-up will be identified to receive approximately 10% respectively.

The Futurity winner will be sold as Lot 1 in the National Gelbvieh Sale. The net sale proceeds of the winning bull will be given to one breeder/member who will be selected by a random drawing.

Each Futurity breeder member will receive 20 (twenty) units of semen from the winning bull.

The voting will be held at the National Western Stadium Arena on Saturday, January 9, 2016 at 10:00 am. The top 3 vote winning bulls in the initial voting will come back to the arena for a second voting to select and announce The Breeder's Choice Gelbvieh Bull Futurity Champion.

Breeder's Choice Gelbvieh Bull futurity winner and drawing will be announced at the Double Tree Hotel Sunday night, January 10, 2016, prior to the National Sale.

The 2016 Futurity is limited to 53 breeder memberships. Two breeder memberships will be sold at public auction before the drawing for the sale proceeds in the Double Tree Hotel. We will be selling the Jack of Spades and 10 of Spades.

All bulls entered in the 2016 Breeder's Choice Gelbvieh Bull Futurity have been DNA tested with high density Genomic EPDs and are tested free of the following genetic defects: AM; NH; CA; and DD. The winning Breeder's Choice Futurity bull is AI qualified and all test have been completed to meet the AGA requirements for AI sires.

Futurity Champion Bull **sells as Lot 1 in National Gelbvieh Sale**

Sunday, January 10, 2016 at 7:00 PM (MST)
Double Tree Hotel, Denver, CO

Entry 1

Genomic enhanced EPDs.

It is with great excitement that Warner Beef brings DLW TPG Jackpot 7551B for your inspection. Here is the opportunity to select a bull that is capable of moving the breed in a positive direction across the board. Not only does this bull lead the breed in percentile rankings for nine traits or indexes but also does it with power in the blood. Jackpot 7551B is an ET son of the great Matron 802U cow that has offered so much to our program. 802U has generated over \$200,000 in progeny to date and her career is just getting warmed up. Most notably she is the dam of futurity champion DLW Alumni 7513A and his littermates that scattered the country to seedstock and commercial breeders alike. Not often does a bull come along that can combine genotype and phenotype to the highest degree like Jackpot 7551B. Here is the age advantaged, purebred bull that will make a difference in all phases of the industry.

Entry 2

Genomic enhanced EPDs.

Check out this powerful, big-boned, HOMOZYGOUS POLLED and DILUTER FREE bull that will add performance, power and bone to his calf crop. He will be able to get out and cover large pastures with his big foot and rugged design. His dam is one of the best black cows we have and his EPDS are most certainly positively influenced by the maternal strength! You'll see him on the hill in Denver. We appreciate your vote and confidence in the Circle S Ranch program!

JRI Top Priority 214C45 ET's donor dam, JRI Ms Peek A Boo 214Y34, is one fertility-plus/calf raising machine. Donor dam, Peek A Boo, was honored as a 2015 Dam of Merit female in her first year of eligibility. Her three natural born calves to date have averaged 86 pounds at birth with an excellent 729 pound 205 day weight spread. JRI Top Priority 214C45 ET would be a full brother to the popular young AI sire, JRI Pistol Pete 214A44. Pistol Pete was a member of Judd Ranch's 2014 National Champion Pen of 3 Gelbvieh Bulls and note his excellent stats: 82lb birth weight, 755lb 205 day weight, 1244lb yearling weight, 39.2 cm yearling scrotal with a 17.8 square inch yearling ribeye.

Entry 4

Genomic enhanced EPDs.

We are proud to present you with our Homozygous Black, Homozygous Polled futurity entry, TAU Shooter 26C. This mating was long overdue and we are very excited with the way it turned out. The combination of Ruppel Gunnison N31 and TAU Ms. Freedom 306N presented us with a very maternally driven herd sire with plenty of power. If you haven't heard of Ruppel Gunnison, he is the sire that has built our cowherd. He is tremendous in regards to maternal quality. This past year we flushed 7 donor cows and 5 of the 7 are direct descendants of Gunnison. On the other side of the pedigree is Ms. Freedom 306N, and she is a true brood cow. 306N is the powerful mother of the highly used Balancer A.I. sire TAU Tuned In 55T. As for Shooter 26C, we feel he combines the best of both pedigrees. There is no doubt that he is massive at the ground, wide from behind and expressive down his top. 26C joins this with a good skeletal build as he is level in his topped and sound structured. Couple this with what his sire has done in our herd and there is no doubt in our mind that TAU Shooter 26C will be a difference maker. He is entered on the hill so stop by and take a look. Video is available at taubenheimgelbvieh.com

Many a Cattleman looks for that bull that combines structural stamina yet the numbers that support ideals like balanced progressive EPDs, eye appeal yet performance. His 205 day weight is 805, he weighed 1047 on 11/22/2015 and he has a ratio of 112 at weaning and a WDA of 4.04 lbs!! He is a renowned Navaho Son, his sire has worked and is now deceased. Homo Pld and Homo Blk, out of a cow line that won't let you down!

Big, Stout, Sound, and Long!!!! We are extremely excited to bring this herd bull prospect for everyone to analyze. His maternal pedigree is backed by one of the best donor cows Flying H has to offer along with Bennett U271 breeding on the top side to make him even better. He is Homozygous Polled and Homozygous Black with EPDs that put him in the Top 5 percent for growth and heifer pregnancy, Top 1 percent for ribeye area and Top 3 percent for marbling.

RTRT Great Divide 503C combines the great outcross bull DCH Hille X102 from Chimney Butte and an outstanding first calf heifer by Lazy TV Sam, tracing back to the "Darci" cow that needs no introduction. His dam can be appreciated in any program as a sound footed female with a flawless udder, who weaned him at 59% of her body weight.

Great Divide offers purebred genetics specializing in economically relevant traits for growth, maternal, and red meat yield (Top 1% CED, Top 10% YW, Top 1%TM, Top 10%FPI). His balanced trait profile is coupled with excellent rib shape, fleshing ability, and structural design that is superior for any breed. His growth has been demonstrated by an 824 lb. adjusted weaning weight. His mass stems from a shoulder structure designed for calving ease, extending into a bold rib shape, a wide top and an expressive hip.

The only thing more flexible than his structure is the mating flexibility that he offers. Great Divide is over 99% Gelbvieh and is an eligible mating for many females in the breed. The limited amount of fresh red genetics indicates his heterozygous black genotype will be a bonus for breeders looking for something new and red. A homozygous polled bull with calving ease, docility, tenderness, and a treasure chest of economically relevant traits – set your program apart with Great Divide.

Out of the popular futurity champion Passion bull and an outstanding Louie female we purchased from Jumping Cow Gelbvieh. This bull boasts WW and YW in the top 5%. His CW is in the top 3%! He is Homo Polled as well! This bull is truly one that 'just gets better by the day'. Big topped with a nice square hip and loads of overall thickness. He is structurally correct and is sure to add design and pounds to your calves. Please come by and study him and we would greatly appreciate your consideration for your vote!

Prairie Hills is proud to nominate PHG Candy Man C49 as our entry in this years Bull Futurity. This sweet red calf will be the lead off bull in our NWSS Pen of 3, and he's deserving of the role. Cool fronted and deep chested, he still exhibits awesome depth of rib while being straight and true in his lines. Get behind him and this bull is stout! Take a look at his real world performance and you'll see that he comes with plenty of options. A 74 pound birth weight, coupled with a 812 weaning pegs him as a curve bender! His EPD profile puts him within the boundaries for all of the traits, with his Milk and Marbling numbers being above breed average. His pedigree is loaded with some of the most consistent genetics we've used – Payday, Xavier, and Fighting Irish. If you're craving Consistency, Power, and Eye Appeal, in an outcross package, you need to see the Candy Man!

Crown Royal 117C has been a standout since birth. Deep bodied, wide topped and big hipped summarizes this guy. Not only is this bull full of dimension, he also has the structural soundness to go with it. He reaches out on the go and fills his tracks as he moves; adding to his functionality.

Crown Royal is backed by a proven cow family with great production history and longevity including the lines of DCH Hille Roy R126, BDOC Bailey's Guy 205X, DCHD 031T and her matriarch dam DCHD 030L. His sire & dam both consistently stamp their offspring just like this. Check out the birth to weaning spread- 78 pound birth weight to 861 weaning weight! It's hard to beat his growth and maternal EPD's for those heavy calves and great front pasture females.

GBG Crown Royal 117C combines it all for a complete package-don't overlook this total outcross bull. We appreciate your consideration in this futurity selection.
