Welcome to the sale...

Welcome to our 7th annual production sale. As always, to our past customers, Thank you, to those of you looking for the first time I sincerely believe you will find something in these pages that fits your program goals. We are excited to again have guest consignor Dahlke Red Angus with 3 Red

Angus bred heifers. All bulls in the sale were bred and raised by Lost River Livestock. New this year, we've retained the services of Mitchell Marketing Service to help organize our sale for a better buyer experience and to market our cattle. Please don't hesitate to contact Chris or Randy for an honest opinion of any lot in the sale or for more information.

We strive to product functional and sound seedstock. I think the cattle will speak for themselves. However, I would like to explain briefly how we have designed our production scheme to create functional seedstock. Our bull development program is not extensive by definition, we do confine our bulls. However, we make every effort to develop a bull that carries enough flesh to have a reserve nutrient supply for the breeding season, but not so much as to limit his athletic ability. Our bulls, from weaning until such a time the weather doesn't permit, are developed on a 50 acre pasture paddock, with supplemental feed to target about a 2.5 lb/day ADG. After the pasture runs out, we gain test the bulls on a ration designed for about 3.25 lb/day ADG. Post sale, the bulls are put back on a ration to gain about 2.5 lb/day to get them ready for breeding. If you choose to take your bull home sale day, I encourage you to visit with one of us about a feeding strategy to be sure your bull keeps developing the way he should.

Our heifer development strategy is more extensive. The heifers are developed in a similar sized paddock using a ration very similar to our cow ration. We target about 1.25-1.50 lb/day on our heifers post weaning. Doing so is proven to create a more functional cow with more longevity and greater overall reproductive and feed efficiency. Our goal is to create a cow that will stay in our, or your, herd as long as possible and be reasonably problem free.

Finally, we sincerely appreciate your interest in our cattle and your support of our sale. Please join us Saturday, February 4. Once again, we are fortunate to have Jay Elfeldt call our auction, along with three excellent ringmen. Our auction, for those of you who have not been with us, is a 100% video sale, with the cattle penned outside. Our auction will also be broadcast on DV Auction for those of you who cannot join us in person. Please call us with any questions, or if you would like to see the cattle please stop by. Thanks and we look forward to seeing you at the sale.

Sincerely,
Lost River Livestock

COMPLIMENTARY LUNCH

Complimentary lunch served at 12:00 noon.

LODGING

Piper's Inn, Clearbrook, MN 218-776-2323

HEALTH

Bulls have received all common calfhood vaccinations and been poured with Ivermectrin. Bred heifers have been vaccinated with Scourguard 4KC and poured with Ivermectrin. Please ask us for a complete herd health protocol.

TERMS AND CONDITIONS

Each animal will be sold to the highest bidder. The auctioneer will settle any bid disputes. Animals must be settled for on sale day with cash or check. All animals are the purchaser's risk as soon as sold. Anyone attending the sale does so at their own risk. Lost River Livestock, sale consignors, sale management, and/or any of the sale crew will not be held responsible for any accidents, damages or stolen items. Lost River Livestock will retain a 50% semen interest in all bulls sold.

ANNOUNCEMENTS

Any necessary corrections to the sale catalog will be made sale day. Announcements made sale day and from the auction block take precedence over any printed material in the catalog or otherwise associated with the sale.

SALE MANAGEMENT BY: Mitchell Marketing Service

Chris Mitchell 334-695-1371
Randy Sienknecht 319-290-3763
2262 C Avenue • Gladbrook, IA 50635

Lost River Livestock Discounts

5% Discount on the Purchase of 4 or more bulls.

\$50 Discount on all bulls hauled home within five days of the sale.

TRANSFER OF REGISTRATION PAPERS

Registration papers will be transferred to the buyer on all registered animals.

DELIVERY

Free delivery within 100 miles of the farm. Consignors will work with buyers to split costs if delivery is over 100 miles.

BOARDING

Bulls not picked up within five days of sale will be boarded and fed until May 1, 2017 at a cost of \$2.50 per day. Bulls left until March will be semen checked again before leaving the farm. Successful buyers are responsible for their animals purchased sale day. We recommend insuring your purchases.

BREEDING GUARANTEE

All bulls are sold as guaranteed breeders and heifers sold as bred. In the event of unsatisfactory breeding performance, either a replacement bull or heifer, or a refund of purchase price or a credit will be provided, when defective bull or heifer is returned to the seller in good health. All females sold as "safe in calf" will be examined and declared safe by a licensed veterinarian within 3 weeks of the sale date.

Genomic enhanced EPDs. Sentinel D43 is without a doubt one of the best calves we have ever raised. He was one of the most popular calves during our pasture tour this summer and hasn't slowed down at all. He displays tremendous power, depth and width all in a moderate package with excellent EPD's. Note his top 10% CE, top 10% BW, top 10% WW, top 1% MK, and top 10% MARB. And his incredible donor dam is one of our very best cows. He is homozygous black and homozygous polled. He is a true herdsire prospect and sale highlight.

Defender D70 is an excellent 75% Gelbvieh bull with terrific depth of rib and explosive muscle shape. His sire LAZY TV Watchman has produced many really sound and balanced calves for us over the last two years. Defender D70's dam is a very promising young cow in our herd. We purchased her in 2014 from Golden Buckle Gelbvieh in North Dakota and her first calf sold in 2016 to Dean Hesse of Red Lake Falls. Don't forget he is homozygous black.

17	-2	85	114	38	80	5	-0.22	33	0.03	0.67	101.37

Genomic enhanced EPDs. Spotter D73 is a full sibling to D43 and D57 and just like his brothers, he is moderate framed, incredibly stout and genetically stacked. He has exceptional calving ease traits with his CE EPD ranking in the top 10% and his BW ranking in the top 15%. But just because he has great calving ease doesn't mean his calves won't get up and grow. Check out his terrific WW EPD that ranks in the top 10% of the breed. This guy, just like his brothers, is a real curve bender. Don't forget he is homozygous black and homozygous polled.

16	-1.3	88	130	38	82	4	-0.15	44	-0.05	0.71	103.52

Genomic enhanced EPDs. Sentry D57 is a full sibling to D43 and D73 and is every bit as impressive as his brothers with a moderate frame, heavy muscle and deep rib. His top 10% CE, top 4% WW and top 5% YW EPD's make him a true curve bender. His calves will also produce very desirable carcasses based on his top 4% MARB EPD. Just like his brothers, he is homozygous black and homozygous polled by pedigree. And just like his brothers, he is a balanced, super impressive calf.

Genomic enhanced EPDs. Influential D89 is a very impressive son of the excellent Leverage bull. Just like his siblings in this sale, Influential D89 is incredibly deep from front to rear, wide topped and heavy muscled. We can't say enough good things about the Leverage calves. And not only are they very well structured, they have excellent EPD's. Influential D89 has solid calving ease (top 30% CE EPD), tremendous growth (top 1% WW EPD, top 3% YW EPD), and excellent maternal traits (top 1% MK EPD). And to top it off, he is homozygous polled. Influential D89 is a bull that needs your attention on sale day.

Leader D65 is a purebred Gelbvieh bull out of a really good Heavy Equipment daughter. She has been a very consistent producer for us with 4 daughters retained in herd and 2 other sons that have sold in previous production sales. His sire is the \$102,000 value syndicated CCRO Carolina Leverage bull that is producing excellent calves around the country. And since he is syndicated, there is no semen for sale on the open market. So, the only way to add his genetics to your herd is to buy progeny like Leader D65.

Olympian is a dark red, long bodied and square hipped Apollo son out of a really good young cow. His dam is also the dam of one the highest quality bred heifers selling in this sale, Cotton Candy C5. With the quality genetics backing up Olympian D186, he should go on to sire some high growth, eye appealing calves.

When we purchased the Apollo herd sire from Hojer's in South Dakota, we were looking for calves like this. Artemis D112 really embodies the powerful traits of his sire. Long bodied, big muscled and near perfect feet and legs. He also displays the great qualities of his dam: clean front end, deep body throughout and eye catching look. He'll definitely catch your attention sale day.

Ram D153 is a 75% Gelbvieh son of our red purebred herdsire, CRAN Buck Y019. Buck has been doing an excellent job for us siring eye appealing, moderate framed cattle that come out easy and grow. His daughters are in production now and have very sound udders and are raising nice calves. Ram D153 should do similar things as his sire.

Tension D87 is a purebred Gelbvieh ET son out of our Pancake Y153 donor. He is sired by RWG Traction and he has sired excellent some females for us. They will start calving this spring and we are really excited about them. They look to be developing very sound udders and have a ton of depth and capacity. Tension D87 should sire balanced calves and highly maternal females.

JCB LAZY TV CRATER B431 Sire of Lots 29-31.

Coulee D98 is a super long bodied and heavy muscled LAZY TV Crater son. Check out his WW EPD that ranks in the top 15% of the breed and his YW ranking in the top 20%. He will definitely add weight to a group of calves. His dam stems from the great Nellie cow family which has produced some of best females and most stylish bulls. Don't forget D98 is homozygous black.

Striker D154 is the only son on our sale this year out of one of the most popular Gelbvieh bulls in recent memory, HYEK Black Impact 3960N. Black Impact is now deceased and his semen is very hard to find, so buying progeny is the only way to get his genetics into your herd. Striker D154 displays the traits that made Black Impact progeny so desirable: super deep bodied, eye appealing phenotype and excellent EPDs. 11 of his traits rank at, or above breed average! And don't forget he is homozygous black.

Baron D152 is high growth son of our Mr. King herdsire with above average calving ease. Take a look at his impressive 784 pound adjusted weaning weight. He also has a very calm disposition. His dam is an ET daughter out of our very productive Jillian 21R with a ton of body and an excellent udder.

Lot 41

Compass D16 has been a standout since he was calf. At an early age, you could see he was going to develop into an impressive bull. His power and mass are what first catches your eye, but he remains clean fronted and clean sheathed, making him very eye appealing. And his young Yukon sired dam is going to be a top cow for us in the future. Her power, dimension and udder quality are all traits we are striving for.

Power D83 is a full brother to D63 and D85 and is a true "Power" bull. He is built very similarly to D63 with a ton of depth and heavy muscle. When you get behind him, you can really appreciate his width and stoutness. In terms of performance, power and width, he doesn't give up anything to any bull in the pen. He should sire calves with exceptional growth and great carcass traits. Take a look at his excellent GridMaster index score that ranks in the top 16% of the breed.

Solid D85 is a full brother to D63 and D85. He is very balanced and moderate framed while maintaining excellent depth and thickness. He is an ET son out of our great Lakota 33R donor dam. She produced the high selling bull on our 2016 sale going to Jim Stevens of Valley City, ND. The genetics behind Solid D85 are as exceptional as they are consistent and predictable. This guy should go out and sire some growthy, attractive calves that with make money and his females will definitely be keepers.

Genomic enhanced EPDs. Nellie D34 is likely the most complete female we have ever offered for sale. Her powerful phenotype should make her very competitive in the show ring but her potential as a breeding piece is even more exciting. Her dam will enter our donor program this year and is one of the most attractive cows on the farm. She is deep sided, wide hiped and easy fleshing. Nellie D34 is sired by the acclaimed Leverage bull who is producing tremendous calves around the country. She sells halter broke and don't forget she is homozygous polled. Retaining the right to one flush with a minimum of six #1 embryos.

Sarah D41 is a direct daughter of the ever-popular Lazy TV Sam and with progeny like this girl, it isn't hard to see why he's been so heavily used. Not only are Sam progeny eye appealing but they also excel on paper. Sarah D41 has 11 traits that rank within the top 30% of the Gelbvieh breed. With EPD's like that and sweet look, this heifer should make an excellent addition to any herd. Don't forget she's homo black and homo polled. She sells halter broke.

Here's a direct daughter out of 93T who is our original Birdie cow. We have ten females in production at our farm that are descendants of her. 279C is a real moderate easy keeping type that scanned over 5% IMF. Her sire, Solid Gold, is a bull that we have used naturally and artificially for three years now for his ability to sire cattle that are correct on their feet and legs. P.E to Dahlke Energy 260C (#3470682) from 6-25-16 to 8-27-16. Observed being bred 7-8-16. Due to calf April 17, 2017.

DAHLKE MS. GOLDBLOCKS 279C Sells as Lot 73.

Another Birdie lineage female that is carrying a Merlin sired calf which is exciting in itself. She could easily pay for herself with her first calf. We sold a maternal sister to Skeeter Creek Angus in 2015 on this sale. These Birdie females are known for their excellent nature and docility. A.I bred to (Genex) LJC Merlin 937C (#1535025) on 5-19-16. P.E to Dahlke Energy 260C (#3470682) from 6-25-16 to 8-27-16. Ultrasounded safe to A.I date for a 2-27-17 calf.

DAHLKE MS. GOLD DIGGER 282C Sells as Lot 74.

Timeless C52 is our only registered SimAngus female this year but she isn't lacking any quality. She is clean fronted and deep bodied. She also has top 35% calving ease traits and a top 2% marbling EPD within the Simmental association. She should make an excellent breeding piece. She sells safe to our Balancer clean up bull, DLW Highly Focused 503C due March 23, 2017.

Misty 25C is a deep bodied, easy fleshing heifer, out of a Beckton Epic dam. She should have her Andras New Direction sired calf on the ground by sale time and Dr.Moser said he thought it was a bull calf. New Direction calves are bringing a premium price all over the place. A.I bred to (ABS) Andras New Direction R240 (#1506922) on 4-27-16. P.E to Dahlke Energy 260C (#3470682) from 6-25-16 to 8-27-16. Ultrasounded safe to A.I date, due 2-3-17 with a bull calf.
