

Breeder's CHOICE

Gelbvieh Bull Futurity

SATURDAY, JANUARY 6, 2018

Held in conjunction with
National Western Stock Show • Denver, Colorado

*21st
Annual*

Breeder's CHOICE

Gelbvieh Bull Futurity

GENERAL INFORMATION

The Breeder's Choice Bull Futurity has been initiated by Gelbvieh breeders and supporters to increase participation in the National Gelbvieh Show, the National Gelbvieh Sale and to identify the most useful young sires in the Gelbvieh breed. The sponsor of the annual Futurity will be the Breeder's Choice Bull Futurity, Inc., a non-profit organization, not associated with the American Gelbvieh Association. The Futurity winners will be selected by scored balloting of the participating breeders members. Ballots must have a different bull in 1st, 2nd, and 3rd positions. Ballots must include all three positions.

The consignor of the Futurity winner shall receive approximately 80% of the net Futurity funds. Two runners-up will be identified to receive approximately 10% respectively.

The Futurity winner will be sold in the National Gelbvieh Sale. The net sale proceeds of the winning bull will be given to one breeder/member who will be selected by a random drawing.

Each Futurity breeder member will receive 20 (twenty) units of semen from the winning bull.

The voting will be held at the National Western Stadium Arena on Saturday, January 6, 2018 at approximately 10:00 am. The top 3 vote winning bulls in the initial voting will come back to the arena for a second voting to select and announce The Breeder's Choice Gelbvieh Bull Futurity Champion.

Breeder's Choice Gelbvieh Bull Futurity drawing will held at the Double Tree Hotel Saturday night, January 6, 2018, at the Breeder's Choice and People's Choice futurity social.

The 2018 Futurity is limited to 53 breeder memberships. Two breeder memberships will be sold at public auction before the drawing for the sale proceeds in the Double Tree Hotel. We will be selling the 7 of Diamonds and Queen of Clubs.

All bulls entered in the 2018 Breeder's Choice Gelbvieh Bull Futurity have been DNA tested for high density Genomic EPDs and are tested for the following genetic defects: AM; NH; CA; and DD. The winning Breeder's Choice Futurity bull is AI qualified and all tests have been completed to meet the AGA requirements for AI sires.

Futurity Champion Bull **sells in the National Gelbvieh and Balancer® Sale**

**Sunday, January 7, 2018 at 6:00 PM (MST)
NWSS Arena, On the Hill, Denver, CO**

Futurity Final Events

Entry 1

Pioneer is a stout, thick-made, red bull, sired by RID R Outlaw 1456B our 2015 National Champion Gelbvieh Bull. Pioneer possess all the same features as Outlaw. He's eye appealing, powerful, big topped, and has plenty of bone, foot, and lower quarter. All of this comes with plenty of rib shape and depth. The added advantage for Pioneer is his ultrasound data, scanning a 12.54 inch ribeye and a 3.463 marbling score. Pioneer's EPDs are balanced and breed-leading for growth, carcass, and material traits. Pioneer has the potential to be the red purebred sire everyone has been seeking.

CIRS Diesel brings the calving ease legacy of Freedom and the COW POWER of EGL G386 – a 15/16 sister to the great Phoebe cow. Don't buy into the myth that "Diesel's" progeny may be "hard startin". With an actual birth weight of 81 pounds, this guy was up and nursing his recip dam quickly, on his own, and with no problem! Regardless of where the EPDs will "fall out", we believe Diesel will be a great breeding piece that will add the strong maternal qualities, performance and outstanding carcass traits to his progeny. Diesel has all the right stuff to bring back the foundational Gelbvieh traits of milk, muscle and maternal power. Rib shape, big quarter – all on a structurally sound frame that flat gets out and moves well! To sum it all up for you, if you are looking for performance, efficiency, and longevity, please consider CIRS Diesel on your Futurity Ballot. Thank you for your consideration.

Entry 3

Cow efficiency is a key profit maker in the beef industry and JRI Transformer 254E44's first calf dam, JRI 254C34, definitely excels in cow efficiency. JRI Transformer 254E44 weaned off his first-calf dam at 934 pounds, 85.6% of his dam's 1,090 pound body weight. Weaning 85.6% of a female's body weight is flat incredible. JRI 254C34 possesses a 99 teat and udder score. This is one mighty powerful cow efficiency cow family that features three honored Dam of Merit/Dam of Distinction maternal grandams.

Entry 4

We're proud to present Post Rock Powerhouse 70E2 as our Breeders Choice Futurity entry. Powerhouse is a black Powerbuilt son that certainly lives up to his name with the added muscle, rib shape and quality the Powerbuilt progeny are known for. His dam is a perfect uddered extremely moderate daughter of the legendary donor 223M2 that's off to a great start with ratios of 96 BW, 102 WW, 103 YW in large contemporary groups on her first 3 calves. His EPDS indicate below Breed average BW and CE with top 35% WW, 25 % YW and top 15 % marbling genetics. Powerhouse covers all the bases for except able calving ease performance carcass and pedigree strength.

Hilltop Farms is proud to present HTFG Mr Excalibur E743 as our 2018 Breeders Choice Gelbvieh Futurity entry. There is no doubt that Excalibur has been a standout among our 2017 spring purebred bull calves since he hit the ground. This square hipped, stout made individual is sure to turn some heads as he has a natural herdsire look to him. This 94% Homozygous Polled Purebred is out of a full brother to the great PostRock Astronaut AI sire, there's no doubt that Excalibur could be the next great one. While in the mile high city be sure to lookup Excalibur in our stall. Thank you for your consideration. Hilltop Farms is committed to raising quality seedstock.

Entry 6

Prairie Hills is excited to submit PHG Eminence E02 for your consideration as this years futurity entry. It's a bold statement, but Eminence may be the best calf ever raised on our ranch. Examine his striking phenotype and you'll see a low smooth shoulder, boldly sprung rib, wide top, and tremendous rear third. His sire is the \$30,000 Dominance bull we purchased from Beas-trom's in 2015. The first calves from Dominance were incredibly well received in our 2017 sale, and Eminence is a great example of why. His dam is a Canadian born female we purchased to infuse new genetics into our herd, and she's done an excellent job of landing a calf in the replacement pen every year. His pedigree will be an outcross for quite a few breeders, and his performance numbers indicate he could be used on a variety of cow types. He will be a part of our pen of 3 in the Yards. We invite you to stop and check him out in person!

Homozygous Black and Homozygous Polled, DVE Davidson A+ 103E, is sired by FRL Fir River Cobalt a new young herd bull and high selling bull at \$19,000, Vernon & Eileen selected in 2015 to add to their bull battery! His first calf crop has been consistently awesome! This Futurity bull entry, DVE Davidson A+ 103E was named Reserve Junior Division, Bull Calf Champion at the recent 2017 Canadian Western Agribition in Regina, Saskatchewan Canada. On test he gained 3.49 lbs ADG and a WDA of 4.12, and is currently weighing in at just under 1200 lbs. Deep flanked, wide topped, with volume and mass, and enough bone combined with eye appeal, contribute to this young sires all round solid credentials! Look him up in the stalls at the NWSS as well as sisters!

Hatfield, where do we start. He is homozygous polled, double black, and sired by our 2016 National Champion Gelbvieh Bull RID R Lawman 1467B. On the dam's side of the pedigree you find Good Fortune and the great Pearl 540W female. Hatfield resembles Lawman in phenotype and style, but is thicker! Hatfield's EPDs are just as solid as the bull - ranking in the top of the breed for WW, YW, TM, HP, PG30, YG, CW, REA, MB, ADG, FPI, and EPI. Check out this young herdsire in the 2018 Breeder's Choice Bull Futurity.

RWG Easy Money 7305 is a maternal brother to RWG Right Combination 5506 "3 time National champion bull, who will be on display at NWSS." This 164Y x Astronaut son is so unique in pattern and design, he is stamped with the front 1/3 we have come to expect from these maternal sibs. Matched with such a smooth front shoulder that flows into his deep heart, he is stout over the top and square hiped. Easy Money 7305 nursed a first calf heifer and has quickly made up that ground since being weaned. He sets himself apart from the rest as he is so soft on the ground and his over all correctness shines. RWG Easy Money 7305 has the pattern and profile to dramatically improve the phenotype of a breeding program while adding real world production values and marketability.

Homo Black and Homo Polled, this bull is sure to catch your eye. HIGH Stand Up 26E74 is out of a tremendous cow that we are just now beginning to flush. She has averaged a BW of 80# and WW of 715# across her 4 natural calves, and she averaged 10 embryos per flush this summer in her first 3 rounds as a donor cow. On the sire side, Stand Up is out of our herdsire HIGH Stands Alone 9B73 ET, whom you might remember for his superior depth and body as well as being one of the stoutest Black Impact sons around. He is also out of our donor Berry Crush who would be a donor cow in any herd in the Gelbvieh breed. Stands Alone has sired a tremendous set of calves in his first calf crop, and all of them are super quiet and gentle. Great Phenotype, Great Genotype and Great EPDs, Stand Up is the Gelbvieh bull for you!
