A winter landscape with snow-covered trees and a barbed wire fence. The scene is misty or foggy, with a dense line of trees in the background and a barbed wire fence in the foreground. The ground is covered in snow, and some dry grass is visible. The overall tone is cold and serene.

35th Annual North Dakota Gelbvieh Association's

GOLDEN RULE SALE

Sunday, January 27, 2019 • 7:00 PM (CST)
Baymont Inn and Suites, Mandan, ND

“CAPTURING MORE VALUE WITH GELBVIEWH GENETICS”

KRAFT GELBIEH

CMK F55 is donated by Kraft Gelbvieh to the North Dakota Gelbvieh Association to help promote Gelbvieh in North Dakota and surrounding areas. CMK F55 is a daughter of DDGR Drifter 74B and our CMK S4 cow family. Maternal strength is very prevalent in this cow family.

CMK F55 - Sells as Donation Heifer.

Thank you to Kraft Gelbvieh, Chad Kraft of Turtle Lake, ND for donating CMK F55 to the North Dakota Gelbvieh Association for our 2019 fundraiser. The continued support of the North Dakota Gelbvieh Association is appreciated.

Purchase your raffle tickets for \$5 from any member.

Raffle Prizes:

- 1 Purebred Gelbvieh Heifer donated by Kraft Gelbvieh or \$1,000 cash
- 1 package Igenity/Neogen Tissue Sample Applicator and 50 TSU (\$100 Value)
- 2 One Night Stay at Baymont Inn & Suites, Mandan, ND (\$130 value)
- 2 \$25 Gift Certificates to Stockmen's Supply West, Mandan, ND

Drawing will be held at the North Dakota Golden Rule Sale, January 27, 2019 at Baymont Inn, Mandan, ND.

SALE OFFERING VIDEOS

Videos of sale offering are posted on MMS website, www.mms.bz, and NDGA website, www.ndgelbviehassociation.com. Please contact MMS if you would like a copy of a DVD with videos of sale cattle.

NORTH DAKOTA GELBIEH ASSOCIATION

www.ndgelbviehassociation.com

Founded in 1982 with 6 members. Today there are approximately 60 members. The North Dakota Gelbvieh Association (NDGA) sponsors the annual "Golden Rule" sale. This sale is one of the longest running, most successful state association sales in the nation. North Dakota ranks 4th in the nation for active cows and 5th in the nation for registered cows. According to the American Gelbvieh Association (AGA), North Dakota is the most aggressive state in the nation for promoting the Gelbvieh breed.

NDGA GOLDEN RULE FEMALES

1 CHOICE OF CRANVIEW GELBVIEH 2018 OPEN HEIFERS

CRANVIEW GELBVIEH

We are proud to offer choice of our 2018 born heifer calves which includes everything from our ET, AI and natural service calves. Over half of these heifers are from an ET mating and most of the others from a female that came from our ET program. Donor dams include CRAN Z251 Buttercup (1225850), DCH Z133 Zula (1226373), CRAN A313 Princess (1259724), CRAN C557 Zula (1330353), and BSF W2 Princess (AMAN 16497760).

CRAN Z251 Buttercup - We sold a limited Embryo interest to Eagle Pass Ranch, Jumping Cow Gelbvieh and Beastron Ranch in the National Sale and she is dam to several past Futurity nominations. She is an extremely beautiful TC Total BA50 female with an excellent carcass portfolio. She has Sam 971B and Secret Brand calves in this offering.

DCH Z133 - The decision to purchase this cow back in 2013 might be one of my best decisions. She has produced females that we have added to our herd and progeny that have sold into Canada and a number of other states. Her Game Changer heifer calf led our 2018 heifer calf sale and sold to Shad Ludeman in SD for \$6000. CRAN C557 (Sandhills donor female) is one of her most talked about progeny as she had many friends during her show career.

DCH ZULA Z133 • Donor dam of Lot 1.

CRAN A313 - One of our goals with producing Balancers is to produce females that we can use to build better high percentage Gelbvieh. We took one of the best Angus cows (Princess W2) and mated her to a Futurity winner to produce this female. A313 had many friends in the US and Canada while we showed her and has produced females that we have added to our herd.

CRAN C557 - This cow is a spitting image of her mother, Z133, except she is red. This Sandhills heifer was part of one of the most profitable flushes we ever sold to include flush mates that were sold to Warner Beef Genetics and Cedar Top Ranch. C557 is a 5.5 frame cow with a huge amount of volume.

Princess W2 - This cow has a tremendous amount of volume and bone. She has as much phenotypic similarities to our Gelbvieh cows as I could find in an Angus package. Combine that with her genetic package and we have a tremendous opportunity to produce some excellent Balancer progeny. She is the dam of the 2-time NWSS Reserve Champion Angus Bull-BSF Opportunist and the extremely popular Hot Lotto Angus Bull owned by Bull Barn Genetics.

Sires used to create these heifers include Jackpot 7551B, JRI Probit, Lazy TV SAM U451, DLW Sam 971B, FHG GrandSlam 128D, DDGR 95D, CRAN Fillmore B553, EGL Lock & Load, and DLW Alumni. Most heifers are Balancers ranging from 38% - 75% with a handful of heifers being PB.

Your pick must be completed prior to our March 23rd Sale date. This gives the fortunate bidder the opportunity to view videos prior to picking.

LOST RIVER LIVESTOCK Genomic enhanced EPDs.

The word that most often comes to mind when thinking about Jo-Leen E25 is COMPLETE. She is undoubtedly the most complete female we have ever offered for sale. She has it all: EPD strength and balance, excellent index values, incredibly attractive phenotype, easy going disposition, comes from a tremendously productive cow family. Due 1-25-19 to JRI Optimizer 148A24 (AMGV1266738). Retaining the right to one embryo flush with a minimum of six transferable embryos. Halter Broke

CHIMNEY BUTTE RANCH

Identity females have been great females for us. This great looking, easy keeping female will be no exception. If you want to add a true quality Balancer to your herd this is one of the really good ones. Ultrasound indicates she is safe to the A-I sire MCCA Cornhusker Red 524C (AMGV1310913), carrying a Bull calf due 2/28/2019. DNA profiles for our offering were in process at printing time and will be posted on our website when available.

LRSF LRL JO-LEEN E25 • Sells as Lot 2.

PRAIRIE HILLS GELBIEH Genomic enhanced EPDs.

Another good daughter of Yikes that is well balanced all around. We showed her dam as an open heifer, and she's gone on to make a darn good cow. This year's Jackson bull calf was near the top of the list for red pen bulls. That's the kind of consistency we like to see in our females! Homo polled, she sells bred to DVE Davidson Jackson 26A for a 4/17 calf.

DVE DAVIDSON JACKPOT 26A • Service sire of Lot 4.

DIAMOND D GELBVIEH

This Sam daughter is a higher performance female with excellent eye appeal. She had a nursing ratio of 108 and still has a CED EPD in the top 30% of the breed. Also, typical of the Sam daughters, she has an excellent marbling EPD, being in the top 10% and a TM EPD in the top 1% of the breed. We really liked the mating to the Angus Right Answer sire and she is due March 7 with a heifer calf.

CHIMNEY BUTTE RANCH

Quite possibly the best Resource daughter we have raised. Big volume, feminine, and structurally correct. Her maternal granddam, DCH N107, achieved Dam of Distinction status. Ultrasound safe to the A-I sire JOB 53B Choco, (AMGV1278414) homo black, homo polled, due 2/28/2019 with a bull calf. Females like this, bred with this much potential should never leave our place, but the gates are open when Chris screens.

CHIMNEY BUTTE RANCH

The first ET female we have offered for sale at auction before calving. You can build a herd around this female. An exceptional female backed with a rock solid pedigree. The longest heifer in the offering, with a big hip and big volume. Ultrasound safe to A-I sire Musgrave Aviator 542 (AMAN17264774), due 2/27/2019 with a Balancer heifer calf. We would work with the buyer to flush this female should they agree.

DCH DCH HILLE E788 ET • Sells as Lot 12.

DIAMOND D GELBVIEH

Hard to find genetics more proven than in this female. The Conquest sire has worked great in our herd for years, producing easy keeping, docile cattle that are moderate framed and thick made. Combine that with the Dam of Distinction genetics of her dam and this female's eye appeal and you can't go wrong. She is due to the DCH Hille E759 bull that we purchased for our red heifers, and is carrying a bull calf due on March 28.

DIAMOND D GELBIEH

Our B401 daughters as state sale prospects the last 2 years are proving out to be excellent cows. As a first calf heifer, the full sister to this female, DDGR 215D, had a Leverage bull calf that has been a top end bull all summer and fall and our 410Z cow has an outstanding bull calf this year also. Due with a bull calf March 26 by the FHG Grand Slam 128D sire that was a runner-up in the Denver bull futurity.

GOLDEN BUCKLE GELBIEH

We absolutely love our McGraw daughters—they are easy fleshing, docile and consistent. One of the few McGraw daughters offered for sale to date. Elsie is an easy fleshing, big-middled heifer who is sure to go on to produce those thick made, soggy calves. Don't miss your chance at this rare opportunity to own this maternal oriented female. Ultrasound confirmed bred to AWW Birch's Cold One 4D (CDGV159333) with a heifer calf, due April 7.

DAVID BEDKER

A beautiful growthy heifer that has producer written all over her. Top 1% TM, top 2% FPI, top 4% for both WW and YW, top 15% for CED and top 20% for BW. She had a 107 ww ratio. Her extremely docile dam also produced my herd sire, Harris Tweed and has an average ratio of 109 for calves weaned. Sells open

10.2	1.8	63	87	25	56	4	-0.39	2	0.5	-0.02	64.06

GOLDEN BUCKLE GELBVIEH Genomic enhanced EPDs.

A typical 217C ET Captain Morgan calf that displays the same powerful characteristics as his sire. His dam of merit mother is out of the great Roy sire that had a huge influence in our herd. Felix is a level topped, square hiped bull that should go on to produce those sale topping offspring. His dam is a consistent female that has put multiple bull calves in the sale pen.

EPD DEFINITIONS

CALVING EASE DIRECT (CED): Percent of unassisted births of a bull's calves when he is used on heifers. A higher number is favorable, meaning better calving ease. This EPD can be vital to a rancher looking to decrease the amount of calves pulled in his herd.

BIRTH WEIGHT (BW): Predicts the difference, in pounds, for birth weight of the calf.

WEANING WEIGHT (WW): Predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

YEARLING WEIGHT (YW): Predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

MILK (MILK): The genetic ability of a sire's daughters to produce milk expressed in pounds of weaning weight.

CALVING EASE MATERNAL (CEM): Represented as percent of unassisted births in a sire's first-calving daughters. A higher number represents more favorable calving ease. This EPD is important to a rancher's bottom line because it predicts which animals produce daughters with a genetic pre-disposition to calve unassisted as heifers.

TOTAL MATERNAL (TM): An index that combines growth and milk information as a prediction of the weaning weight performance of calves from a sire's daughters. As an index, this value is not reported with an accompanying accuracy. A greater TM value means a mother that returns comparatively higher weaning weights on her calves. $TM\ Index = MK\ EPD + \frac{1}{2}\ WW\ EPD$.

YIELD GRADE (YG): Differences in yield grade score, which is a predictor of percent retail product. Smaller values suggest that progeny will have a better lean to fat ratio.

CARCASS WEIGHT (CW): Differences in pounds of hot carcass weight, adjusted to an industry standard age endpoint.

RIBEYE AREA (REA): Differences in ribeye area in inches between the 12th and 13th rib. Greater ribeye areas are preferable.

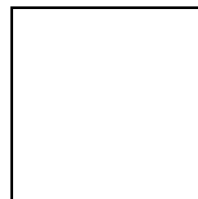

MARBLING (MB): Predicts the differences in the degree of marbling within the ribeye as expressed in marbling score units. Greater marbling numbers are preferable and are an indicator of higher carcass quality grades. Growth traits

FEEDER PROFIT INDEX (FPI): An economic selection index designed to aid producers in selecting sires whose progeny will perform in the feedlot and are sold on a grade and yield standpoint. Well ranking sires for FPI have higher marbling and carcass weight than their contemporaries. As a terminal index, little emphasis is put on maternal traits such as stayability and calving ease.
