VISIT OUR WEBSITE FOR SALE PREVIEW INFORMATION
WWW.PRAIRIEHILLSGELBVIEH.COM

Hello and Welcome!

We would like to welcome everyone to our annual production sale. 2015 marks 30 years in the registered Gelbvieh seedstock business for Prairie Hills Gelbvieh. In the last 30 years we have seen plenty of changes take place in the beef business. While trends come and go, good cattle are always in demand. We would like to thank all of our friends, neighbors, and customers - new and old - for their continued support and business. The friendships that we've made are better than any banner that might hang on the wall. We look forward to helping serve your seedstock needs for the next 30 years!

In recent years we have been increasing our numbers, while maintaining an emphasis on pedigrees and cow families that are out crosses to most herds in the USA and Canada. We still emphasize performance with style. With all of the changes and fluctuations in the cattle market, one thing remains true - performance is necessary in order to make a profit. Keeping this in mind, we strive for a balance of traits that are necessary for a complete herd. Calving ease, maternal ability, disposition, as well as carcass traits are all important and are high on our culling criteria. Last year we put in our first group of embryos and are very pleased with the results. This has allowed us to offer groups of full and half brothers for those who run multiple sire pastures. The embryo calves are a bit younger, but they are still an impressive group of bulls.

The bulls and heifers have been fed a growing ration from Hubbard Feeds. They receive a free choice ration of 12% protein pellets and free choice oat and field pea hay. They also have access to VitaFerm ConceptAid mineral, and a VitaFerm mineral supplement incorporated into the feed ration.

The sale will again be held at the sale facility at Klint & Maralee's. All cattle will be sold by video, with the bulls and heifers available for viewing within feet of the sale facility. No live animals will be entering the building. We will have the videos available for viewing on our website (www.prairiehillsgelbvieh.com) and the MMS website (www.mms.bz). Any supplemental sale information will also be posted on these two sites. The animals will be available for viewing beginning at 12PM on Friday, February 13th, and 9AM Saturday, February 14th.

We will again be broadcasting the sale live through DVAuction. If you are unable to attend the sale and would like to bid, please contact DVAuction prior to the sale to obtain your bidder information. We will also have people available if you choose to bid over the phone. Please contact Klint, Galen, or any of the MMS staff so arrangements can be made.

We would again like to thank everyone for their support over the years. Please stop by anytime to tour through the cattle and cowherd. If you have questions on any of the animals, please don't hesitate to contact Galen, Klint, Chris or Randy.

Thank You!

AUCTIONEER

Jay Elfeldt: 308-293-3049

SALE DAY MEAL

A complimentary meal is provided by Prairie Hills Gelbvieh on sale day at noon at the Prairie Hills Gelbvieh sale facility.

SUPPLEMENT SHEET

All weights, scrotal measurements, and other supplemental material will be posted to the PHG and MMS websites the week of the sale. A supplement sheet will be available sale day.

HEALTH INFORMATION

All cattle sell with a valid health certificate that will allow shipment anywhere in the continental United States. All cattle are guaranteed to meet health requirements to ship to Canada.

VIEWING OF SALE CATTLE

Bulls and females are available for viewing any time prior to the sale. Cattle will be ready for viewing by 9AM on sale day.

REGISTRATION PAPERS

All registration papers on the animals selling are in order and will be transferred to the new owner. Papers will be mailed by the AGA and should be to the new owner in 30-45 days.

ONLINE BIDDING

Buyers unable to attend the sale may register and bid live online at www.dvauction.com, complete details on page 2 of sale book.

EPDS

All EPDs are provided by the American Gelbvieh Association and are current at printing of the sale book.

TERMS AND CONDITIONS

Terms are check or cash. All cattle sell under the standard terms and conditions recommended by the American Gelbvieh Association. A copy of the terms and conditions may be obtained from AGA, Prairie Hills Gelbvieh or MMS.

LIABILITY

All persons attending the sale do so at their own risk. Prairie Hills Gelbvieh and/or MMS assumes no liability for accidents, theft or damages occurring at the sale facility.

SALE MANAGEMENT BY:

VIDEO AUCTION SALE PROCEDURE

All animals selling will be penned at the sale facility. The auction will be conducted inside the sale barn at Prairie Hills Gelbvieh. A video of each sale animal will be played on large screen displays as the respective animal sells. Cattle will not come into the sale ring. Please arrive early to view the sale offering.

ONLINE VIDEO VIEWING

Available on the PHG website (www.prairiehillsgelbvieh.com) and the MMS website (www.mms.bz) 2 weeks prior to the sale.

DELIVERY

We will deliver all purchases for free within 100 miles of the ranch. We try to coordinate deliveries between multiple buyers so bulls can be delivered efficiently and conveniently to the buyer. We will offer a \$50 discount if you haul your purchase home within 1 week of the sale.

FEEDING

We will feed all purchases free of charge for 30 days (March 15th). Bulls can be left after this date and fed for \$3 per day.

HERD HEALTH

Bulls and females have received all appropriate vaccinations and any applicable boosters. All animals have also received Ivomec pour-on prior to sale day.

INSURANCE

We will make every effort to manage any bulls left in our care in the same manner we manage our own herd bulls, however we understand that accidents do happen. All animals purchased become the responsibility of the buyer after the purchase. We highly recommend insuring your purchase. Insurance will be available on sale day.

BREEDING SEASON GUARANTEE

All bulls and females are sold as guaranteed breeding animals. We will semen test any bulls left in our care in mid-March. If you haul your purchase home before that date, we encourage you to have a breeding soundness exam completed before that date. Any bull failing a semen test or shown to be a non-breeder will be replaced if possible, or the buyer will receive a credit (not to exceed the purchase price of the animal), minus salvage value, towards a purchase next year.

INTERNATIONAL SALES

Prairie Hills Gelbvieh is experienced in transporting animals across the Canadian border and will assist in that transaction. All fees associated with that (brokerage, health testing, etc) are the responsibility of the buyer.

DVAuction

Broadcasting Real-Time Auctions

The auction will be broadcast on dvauction.com

We are proud to present PHG Prairie Phoenix B101 as our donation animal to the Dickinson Catholic School System's "Holy Cow Club". We wanted to choose a top end animal who could go out and really perform for his new owner – Phoenix is that animal. B101 offers an awesome EPD profile that goes well with his eye catching good looks. Straight made and clean fronted, we've had our eye on him as a show potential since birth. We purchased his dam from the Beastrom dispersal in 2013 after seeing her last calf in Denver as their futurity bull. This is a top notch, breeder quality bull who combines all the right pieces into a very desirable package! **Retaining ½ semen interest.**

100% of the proceeds from PHG Prairie Phoenix B101 will be donated to the Dickinson Catholic Schools "Holy Cow Club". The group was started in 1993 by my grandfather, Albert Sickler, and other area farmers and ranchers as a way of helping to support the school system by donating the proceeds of one calf each year. After about a decade, the group grew smaller and was eventually disbanded. The fire that gutted Trinity High School in March of 2014, and the plans to build a new unified campus, brought the need for additional funding to light. Like the mythical Phoenix, we hope the school will be able to rise from the ashes and be born anew. We are proud that this will be the first animal sold under this reborn group and hope that you will help support this worthy cause. If you are interested in more information, please contact Klint, or the advancement staff at Dickinson Catholic Schools.

Boomer was our bull futurity nomination for the Canadian Bull Futurity this year, and he made plenty of friends on both sides of the border! Probably one of the best X-Rated sons to date, he has all the qualities of his sire – dark red in color, deep sided, smooth shouldered, and a pedigree that will work in most herds. His mother achieved Dam of Merit status in 2013, and puts one in the top end every year. We think so much of her, she entered our embryo program this summer. Check his performance and you'll see an 84 pound BW and an 840 WW. He's presently cranking along at 4.7 pounds per day – that's the kind of bull that will put money in the bank! **Retaining ½ semen interest.**

Bam Bam is a calf that has been turning heads since our open house in August, and has gotten plenty of attention since then. His dam was imported into the US from Valley Gelbvieh in Alberta as an open heifer, and is a picture perfect example of a Gelbvieh female. Their herd has been closed for many years - these females being some of the only cattle to ever leave the ranch - and as such her numbers don't reflect the true potential of this female. B98 is a prime example of the type of calves Yukon is producing - deep middled, wide based, and stylish. With an 85lb birthweight and a 799 weaning, PHG B98 is truly a combination bull that gives you the best of performance and calving ease - being homozygous black and polled is just icing on the cake! Put down the paper and take a look at the bull, we're sure you'll like what you see! **Retaining 1/2 semen interest.**

B87 is another bull offering you a great combination of calving ease and performance. Yukon is doing a great job of moderating frame, while adding chest and rib to the calves. B87 combines that with an 82 pound BW and calving ease EPDs in the top 25% of the breed. Stemming from a VG female, you can rest assured that his daughters will have near perfect udder structure. **Homozygous Black.**

This is one of Galen's favorites. Thunder was never shown, but should have had a halter on him. CVV 58P is one of our embryo donor cows, and has sons in this years sale out several different sires, and all of them are high quality. Thunder is 58P's natural calf, and posted one of the higher weaning weights at 834 pounds. Take a look at his EPD's - they are towards the top end in all categories. This is definitely a herd bull prospect to check out.

B201 leads off a group of ET brothers from Beech Jet and PHG Ultra Violet U02. We were so impressed with the Beech Jet females we've purchased over the years, we had to flush one of our best to him. These brothers are all very stylish, smooth, deep made calves. B201 also gives you an EPD profile that is above average, with a marbling EPD in the top 15% of the breed. He may be one of the younger calves in the sale, but he's cranking along at the highest gain since weaning – 5.3 pounds per day!

A red Payday son who comes to us from a pedigree loaded with consistency. His full brother was the high seller in our 2013 sale to Hoff's from Richardton. This guy is the spitting image of his brother, in a red package. Deep bodied, wide topped, he's going to be a money maker for his new owner! Don't overlook the cow side of this pedigree either. Irish daughters are easily some of the best producing, most consistent cows in the herd. I'd love to have a herd full of Payday x Irish daughters

Deep ribbed, soggy made, with a wide rear quarter. Must be a Payday son! The Payday calves speak for themselves. His dam is one of the VG cows we imported into the US in 2011, who has already been recognized as a Dam of Merit. She's a cherry red, moderate framed cow that everyone finds when they walk through the females. He might have a couple nubs on his head, but an 84 pound BW, 785 WW, and a 4.4 average daily gain make it easy to look past them!

Payday decided to only give us red calves this year – luckily we flushed 153R to him and got 1 homozygous black calf! He's exactly what you'd expect from Payday – deep sided, powerful, and ready to sire a set of scale busters. If you're a numbers guy, check out the growth and maternal numbers – top 4% for WW, top 10% for YW, and top 1% for TM.

A red son of Payday from our superb donor MCFG 153R. This guy was on the bubble to join the show string all fall, but he came home from the recip herd a little too late. He might be a bit younger than some of the other Payday sons, but put him next to his older brothers and he'll run with the big dogs.

This is what the beef business is all about. With the cattle market at an all time high, here is a bull that can really put it together. Banknote has the depth and width of chest to go along with his rib eye and rear quarter. On his maternal side, his grandmother is a Dam of Distinction and his mother is always bringing one in the top end. Bid with confidence here!

If you're looking for a heifer bull, here's one that comes with plenty of options! A 63 pound birthweight, 712 weaning, with calving ease, birthweight, and milk EPDs in the top 15%, and a marbling number in the top 10%. His ears might be a little short, but it was only -54 the day he was born. Calves that get up and suck in those conditions make the beef business a little easier!

Seedstock producers, gather around! We're all looking for that next powerhouse red bull that offers the outcross pedigree, top end EPD's, in a stylish, thick, rock star package. This guy definitely fits that mold. A stand out since he hit the ground, he's been a favorite on PHG pasture tours all summer long. He's long bodied, smooth shouldered, wide topped, big scrotaled, etc etc etc - he's just darn good. Being dark cherry red and homo polled is just icing on the cake. We considered keeping him back to use in our own herd, but with Bakken still walking pastures and a batch of Why Me daughters around, we just couldn't put him to use. **Retaining 1/2 Semen Interest.**

If you're looking for a homo black heifer bull, here's a solid choice. A 73 pound birthweight, with EPDs ranking in the top end of the breed for calving ease and birthweight should ensure a good nights sleep. With growth EPD's in the top 25%, you won't have to sacrifice those first calves either!

A bull who's as smooth as brandy! When we purchased Yikes, we planned on breeding him to Payday daughters to get those deep, soft made calves - boy is it great when a plan comes together! This guy is a chunk, but put together in a very smooth, deep bodied, thick topped package. To top it off, both sides are known for their maternal traits.

Beach is a soft made, deep ribbed, outcross red bull. Combining Yikes with our Payday daughters is proving to be a great cross. You get the soggy made, deep rib power the Paydays are known for, with the maternal strength, softness, and hair of Yikes. This guy was born a twin, but it obviously didn't slow him down any!

PHG B24 is a heifer that sorts herself out to the top end of the heifers in the sale. Black Nell is one of our first Yikes daughters, and comes from a solid female purchased from Mike Ketterling in the ND Golden Rule sale. We have only sold 1 other Yikes daughter, and she was the choice from our Agribition show string. Definite front pasture candidate here!

Purebred Gelbvieh Cow • Registration #:1278345 • PHG / B88 • 3/26/2014 • BW: 92 • WW: 603

Another Bakken daughter with plenty of style. Her mother is an older cow that has several daughters in the herd, including PHG Sassy Y37 who is the dam of the super soggy Lot 37 bull.

We made the decision that we should sell at least one Sucker Punch female this year, and we picked one of the coolest. Britney is the only red daughter from Sucker Punch. Goose fronted, she's exceptionally clean and straight where it counts. A 69 pound BW and a 717 WW indicate that she'll get it done as a producer as well. She's never had a halter on her, but she could show for the right junior.

POWER ON THE PRAIRIE

30TH ANNIVERSARY BULL SALE

Prairie Hills Gelbvieh is located in Southwest North Dakota. We specialize in raising high quality, performance oriented, red and black purebred Gelbvieh cattle. Located on the edge of the North Dakota badlands, we place an emphasis on raising cattle that thrive in our environment, are structurally sound, with superior maternal traits. We offer cattle that are an outcross to many of today's popular bloodlines, that are sure to appeal to any discriminating commercial or seedstock producer.
